THE BOARD OF SUPERVISORS OF THE COUNTY OF PLACER, STATE OF CALIFORNIA, DOES HEREBY ORDAINE as follows:

## Section 15.70.000 Declaration of findings

The County of Placer declares that the citizens of the county with moderate, low, and very low incomes are experiencing a housing shortage. Whereas the goal of the County is to achieve a balanced community with housing available for households of all income levels, there exists a shortage of housing that is affordable to many citizens of the County. Federal and state housing subsidies are not sufficient by themselves to satisfy the housing needs of these households. The County finds that the housing shortage for persons of moderate, low, ~~and~~ very low ~~and extremely low~~ incomes is detrimental to the public health, safety, and welfare.

The County has experienced rapidly increasing median rents and median housing prices. Further, the amount of land in the County available for residential development is limited by the high cost of infrastructure, the planning principles embodied in state law pertaining to general plans, and by mandates in federal law. Scarce remaining opportunities for affordable housing would be lost by the consumption of land for market rate residential development without providing housing affordable to persons of all incomes.

Deleted: These increases will continue to perpetuate and exacerbate the shortage of workforce housing.

Therefore, to implement the County General Plan, to carry out the mandates of state housing element law, to include, ~~an additional method to help in meeting~~ the regional fair share housing requirements, ~~to assist in the SACOG Housing Initiative~~, and to ensure the benefits of economic diversity to the residents of the County, it is essential that housing opportunities for all income levels ~~be provided~~, and that the County provide a regulatory and incentive framework which ensures development of an adequate supply and mix of new housing to meet the future housing needs of all income segments of the community.

That Article 15.70, entitled Inclusionary Housing, is hereby added to Chapter 15, Building and Development, of the Placer County Code to read as follows:

## Section 15.70.010 Purpose and intent

This chapter is intended to assist in the provision of affordable housing for persons of moderate, low, ~~and~~ very-low, ~~and extremely low~~ income. Public housing programs and housing subsidy programs can meet only a small portion of the need for ~~low and moderate income~~ affordable housing. The majority of housing units ~~have~~ been and will continue to be produced by the private housing industry. ~~Private industry~~ has the capability to assist in providing affordable housing given supportive government policies and programs, including incentives and public investment, as appropriate. This program

#### **Section 15.70.050 Alternatives to On-Site Inclusionary Housing**

- A. In lieu of including the affordable housing units on-site, the requirements of this ordinance may be satisfied through the alternatives discussed below. If the hearing body finds that on-site units are infeasible, the developer shall submit an equivalency proposal to the hearing body for approval. Such proposals shall show why compliance with this ordinance is not financially or otherwise feasible and how the alternative proposed will further affordable housing opportunities in the County to an equal or greater extent than compliance with the express requirements set forth under Section 15.70.030. A proposal for an alternative equivalent action may include, but is not limited to, the construction of affordable units on another site, dedication of land, the acquisition or rehabilitation of existing standard dwelling units and the enforcement of required rental/sales price restrictions and/or payment of an in-lieu fee.
- ~~B. Applicants proposing to construct rental affordable units in lieu of owner-occupied affordable units shall submit an equivalency proposal pursuant to this section.~~
- ~~C.B.~~ Alternative Equivalency Proposals.
1. Off-site housing: In the event that the County finds on-site inclusionary housing is infeasible, the project is less than 75 units, or it can be demonstrated that another option is equally or more effective in providing affordable housing, upon application of the developer and at the discretion of the hearing body, the developer may satisfy the requirements of providing inclusionary units as part of the residential development, in whole or in part, by constructing or substantially rehabilitating units equal in number to or greater than the required inclusionary units at a site different than the site of the residential development.
  2. Dedication of land for housing: In the event that the County finds on-site or off-site inclusionary housing is infeasible, upon application of the developer and

at the discretion of the hearing body, the developer may satisfy the requirement of providing inclusionary units as part of the residential development, in whole or in part, by a conveyance of land to the County for the construction of the required inclusionary units.

a) The appraised value of the dedicated land shall be equivalent to the cost to provide the inclusionary housing requirements, including the land, financing, construction and soft costs. The developer may provide a "proforma financial model" including a development budget to document the equivalent value of the dedicated land and the cost of providing the inclusionary housing or, :

b) The amount of the dedicated land shall be of sufficient size to accommodate the number of required inclusionary units. In this case the dedicated land shall be fully improved, including off-site improvements, and all impact fees shall be paid.

3. Alternative housing types: An alternative housing type may also be proposed, such as "multi-service housing centers", assisted living centers, or some other form of housing which may not include independent dwellings. Alternative housing types may be permitted if it can be demonstrated to the satisfaction of the County that it satisfies the intent of this ordinance.

4. Payment of an in-lieu fee: In exceptional cases where the County finds on-site inclusionary housing, off-site inclusionary housing, or the dedication of land is infeasible, or when the County has approved an affordable housing project that would benefit from and would be able to proceed if a monetary subsidy was made available by the development project, upon application of the developer and at the discretion of the hearing body, a fee in lieu of all or some of the inclusionary units may be paid by the developer.

Deleted: 3.

Fees paid in-lieu of providing affordable units or dedication of land shall be calculated as the difference between the total development costs ( Land, construction, financing, and soft costs) of a single family unit and the sales price affordable to the targeted households multiplied by the number of required inclusionary units. The fee shall be paid to the county according to Section 15.70.080 and for the fiscal year 04/05 the fee is \$15,969 per market rate unit (this fee is based on an in-lieu fee study prepared by Crawford, Multari, Clark and Associates).

#### D. Further Specifications for Alternative Equivalency Proposals

*Standard for Approval.* The hearing body may approve an equivalency proposal only if it is not financially or otherwise feasible to construct the units within the development and the alternative provides a more cost-efficient solution to the inclusionary housing component than the standard approach set forth in this document, or if the location of off-site development would be superior to on-site development from the perspective of access to transportation, services, public facilities or other applicable residential planning criteria in the general plan.

1. *Number of Affordable Units Credited to the Dedication of Land.* The number of units credited for the dedication of land will be based on the total development cost to provide the number of housing units required including, the land entitled for the required number of units plus the cost of financing, and soft-costs to build the required number of units. The appraised value of the land that is dedicated to the County, or an entity approved by the County, must be equivalent to the cost of providing the number of affordable housing units required. If not, where the appraised value of the dedicated land is less than the total development costs, the developer will be credited for units to the extent that the appraised value covers any portion of the development costs of the housing requirement and the difference covered by payment of a fee or construction of affordable units. As an example, if the total cost to build 10 units is \$2 million, the developer shall dedicate a site that is worth \$2 million.

**Deleted:** *Number of Inclusionary Units Credited to the Dedication of Land.* The number of inclusionary units credited to the dedication of land will be determined based on the total development cost to provide the inclusionary dwelling units including the land, financing, construction and soft costs so that the appraised value of the land that is dedicated to the County is calculated as the difference between

**Deleted:** equivalent to

**Deleted:** the total development costs of the inclusionary requirement and the price affordable to the targeted households multiplied by the number of required inclusionary units. If the appraised value of the dedicated land is less than the total development costs, the developer will be credited for inclusionary units to the extent that the appraised value covers any portion of the development costs of the inclusionary requirement. Any fractions of a unit will be rounded down to the nearest whole unit.¶

With respect to dedicated land, the County, upon acceptance of an offer of dedication, shall publish a request for proposal for development of the site(s) which will result in at least the number of units credited to the site(s).

2. *Site Suitability.* The land proposed for dedication must be suitable from the perspective of size, configuration, physical characteristics, physical and environmental constraints, access, location, adjacent use, and other relevant planning criteria.

3. *Site Identification and Regulatory Status.* The developer must identify the proposed dedicated site and the number of proposed units to be credited thereby as part of the equivalency proposal required in this document. ~~At the same time or before the development project receives its entitlements, the dedicated land shall have received all the legislative entitlements necessary for development of the inclusionary units on such land.~~ Unless the phasing plan requires permits otherwise, at the same time or before a residential project records a final map, or is issued a building permit, whichever is earlier, the dedicated land shall have received all the necessary project-level approvals necessary for development of the inclusionary units on such land, and prior to the issuance of any certificate of occupancy, for the development a residential project, the dedicated land shall be fully served with the infrastructure necessary for residential development. If the off-site development is located outside unincorporated Placer County, written acknowledgement that the jurisdiction supports the development and is aware that the project is intended to satisfy a housing requirement for Placer County must be provided.

**Deleted:** legislative

4. ~~Planning Commission Review~~ *Hearing Body.* If the equivalency proposal is accepted or accepted as modified by the hearing body, the relevant elements of the equivalency proposal shall be included in the applicable approvals for both the residential development generating the requirement for the inclusionary housing component and, if applicable, the dedicated site, off-site development, or

**Deleted:** legislative

rehabilitation project where all or part of that requirement is proposed to be met. If the equivalency proposal is rejected, the inclusionary housing component shall be provided as set forth in this document within the development project.

5. *Implementation.* Within 90 days of the approval of the **development** project, , the owner of the residential project must enter into an Inclusionary Housing Agreement with the County that provides: (1) in the case of land dedication, provide an irrevocable offer of dedication for the dedicated site at no cost to the County or to a developer of affordable housing approved by the County; and (2) in the case of off-site development, demonstrate to the hearing body that the off-site location is and will remain committed to the timely development of the inclusionary units; and (3) in the case of new construction or substantial rehabilitation of rental units, assure that the units will be rent restricted for **no less than** 30 years with respect to each affordable unit. The commitment of off-site land may be demonstrated through ownership of the off-site location, or through adequate control of the use of the off-site location through joint-ownership, joint venture or other contractual means. If necessary to ensure that inclusionary housing units are developed or rehabilitated **contemporaneously concurrently** with the market rate units, the County may require the offer of dedication, evidence of site control, or commencement of rehabilitation as early as the recording of a final map or issuance of a building permit, whichever occurs first.

Deleted: planning commission

Deleted: f-

With respect to an off-site location, the hearing body **may shall** also condition development or occupancy of the residential project on development or occupancy of the off-site inclusionary units, and the inclusionary housing agreement must apply to and be recorded against both the residential project and the off-site development.

6. *Appeals.* An applicant or any aggrieved person may appeal decisions of the hearing body as provided by the Placer County Zoning Ordinance.

### **Section 15.70.060 Affordable Housing Incentives**

The developer may request that the County provide inclusionary incentives as set forth in this Section. The goal of these inclusionary incentives is to apply available incentives to qualifying projects in a manner that, to the extent feasible, offsets the cost of providing the inclusionary housing component. The planning director shall respond to that request and make a determination as to a package of inclusionary incentives.

A. *Fee Waivers or Deferrals.* Upon application as provided herein, the County shall make available a program of waiver, reduction, or deferral of development fees, administrative fees, and financing fees for affordable units. Such a program may include a fifty percent (50%) waiver of development-related application and processing fees for affordable units constructed in connection with such residential project. This waiver does not include impact fees unless another funding source has been identified. In addition, the hearing body may consider, on a case-by-case basis, the provision of additional

incentives as provided by law or in the Housing Element of the Placer County general plan.

*B. Modification of Planning and Public Works Development Standards.* The County has adopted design and infrastructure development standards that govern housing development in the County. Upon application as provided herein, the County may modify, to the extent feasible and in light of the proposed uses, those standards which include, but are not limited to: parking, lot coverage, road widths, curb and gutter, and sidewalks. No modification will be considered that may compromise standards relating to public health and safety, drainage considerations or standards resulting from state and federal requirements. For example, water quality requirements resulting from the County's NPDES permit cannot be reduced, nor can standards relating to protection of structures from flooding.

*C. Interior Finish Reductions.* Upon application as provided herein, the County may, to the maximum extent appropriate in light of project design elements, allow builders to finish the interior of affordable units with less expensive finishes and appliances.

*D. Streamlining and Priority Processing.* The planning director shall review and modify, as appropriate, procedures for streamlining and priority processing which relieve affordable units of permit processing requirements to the maximum extent feasible consistent with the public health, safety, and welfare.

*E. Density Bonus.* The County shall make available to the developer a density bonus as provided in state density bonus law (Government Code Section 65915), however, the affordability requirements to qualify for a density bonus shall be those stated in Section 15.70.030 and the other provisions of this article. Units produced as part of such a density bonus do not give rise to an inclusionary housing requirement and can be used to satisfy the ~~15%~~ 12% inclusionary requirement.

*F. Additional Density Bonus.* Multi-family projects located within a Residential Multi-family (RM) or a Commercial zone district may request a density bonus for up to 40% (inclusive of State Density bonus law) for projects where 50% of the units are affordable to very low or low income households.

~~*F. G. Reduced Affordability time limit*~~ ~~*"For Sale" inclusionary units constructed on-site may have the affordable time period reduced to 20 years.*~~

*H. In lieu fee for ~~Eliminate~~ Fraction Requirement.* Projects which construct units on-site ~~are exempt from providing the fractions of affordable units as specified in Section 5.70.030B~~ may pay a proportional in lieu fee for any remaining fractional requirement.

#### **Section 15.70.070 Time Performance Required**

No temporary or permanent certificate of occupancy for any new dwelling unit in a residential project shall be issued until the permittee has met the on-site construction inclusionary requirement of the residential development or has satisfactorily performed one of the alternative actions set forth in this document.

#### **Section 15.70.080 Collection and Use of In-lieu Fees**

Any monies contributed to the County pursuant to the provisions of this Chapter shall be payable to Placer County for the purpose of providing affordable housing. Payment of the fee shall be made in full prior to the issuance of building permits or recordation of final maps.

~~Any fees collected and interest accrued pursuant to this chapter shall be committed within five years after the payment of such fees.~~

#### **Section 15.70.090 Administration of Affordability Control**

Prior to the issuance of certificates of occupancy for affordable units, regulatory agreements and, if the affordable units are owner-occupied, resale ~~affordable housing covenants~~, deeds of trust and/or other documents, all of which must be acceptable to the ~~Redevelopment Agency~~ and consistent with the requirements of this Chapter, shall be recorded against parcels having such affordable units and shall be effective for ~~no less than 30 years~~.
